BB-114 PRODUCT SPECIFICATIONS (CONTINUED)

THIS DISPLAY CAN BE RUN WITH THE HAND HELD ALL SPORT® 100 CONTROL CONSOLE OR ON A SYSTEM WITH THE ALL SPORT 3100 OR 5010 CONTROL CONSOLE:

ALL SPORT 100 CONTROL CONSOLE:

This hand-held controller is encased in durable ABS plastic. The console's liquid crystal display (LCD) will guide you through the operation of the system. The All Sport 100 can be configured to display game time, game scores, and possession and bonus information.

ALL SPORT 3100 AND 5010 CONTROL CONSOLES:

Control console electronics are housed in a rugged aluminum case. Consoles have 32-character liquid crystal prompting displays to verify entries and recall information currently displayed. Case and sealed membrane keyboard make consoles' faces water-resistant. Consoles are capable of controlling other All Sport scoreboards through the use of keyboard inserts. A 20' (6096 m) control cable and a 6' (1829 mm) power cord are supplied. The power cord plugs into a standard grounded 120 V AC outlet. Maximum power demand for the All Sport 3100 is 5 watts. All 230 V AC scoreboards use All Sport 3120 control consoles. Maximum power for the All Sport 5010 demand is 6 W. All 230 V AC scoreboards use All Sport® 5020 control consoles.

CONTROL CABLE:

A two-pair, shielded cable at 22 AWG connects the All Sport 100 controller to the BB-114.

HORN:

A vibrating horn, mounted behind the scoreboard face, sounds automatically when period clock counts down to zero or manually as controlled by the operator.

SYNCHRONIZATION:

The BB-114 has the capability to operate in synchronism with all other Daktronics basketball scoreboards.

GENERAL INFORMATION:

The scoreboard provides scoring capabilities for two teams. 100% solid state electronics are housed in a molded polyethylene cabinet.

QUALITY COMMITMENT PLAN:

Exclusive one-year Daktronics GoldSM plan in the U.S. and Canada (see SL04513 for more information).

SEGMENT TIMER MODE:

The segment timer mode is ideal for keeping practices on schedule. The horn at the end of a segment allows coaches and athletes to focus on the practice and listen for the horn when it is time to change drills. See SL04004 for more information.
